HATCHET BURIED BY SPANISH.

The United States Is To Be Among the "Favored Nations."

Washington, Aug. 31.—The state department has made public a proclamation by President Roosevelt declaring and putting into effect on Sept. 1, next, the new agreement as to reciprocal tariff concessions between this government and Spain. Under the agreement, American goods are to pay duty according to Spain's second tariff schedule—the rate accorded favored nations—in return for American concessions in the way of tariff reductions on wines and other Spanish imports into the United States.

Here is the new schedule which the United States will allow Spain to operate:

Upon argots or crude tartar, or wine less crude, 5 per centum ad valorem. Upon brandies or other spirits manufactured or distilled from grain or other materials, $1.75 per proof gallon. Upon still wines and vermuth in casks, 35 cents per gallon; in bottles or jugs containing each not more than one quart and more than one pint $1.25 per case and any excess beyond these quantities found in such bottles or jugs shall be subject to a duty of 4 cents per pint or additional fractional part part thereof, but no separate or additional duty shall be assessed upon the bottles or jugs.

Upon paintings in oil or water colors, pastels, pen-and-ink drawings and statuary, 15 per centum ad valorem.

Poole Advises to Hold Cotton.

Montgomery, Ala., Aug. 31.—Commissioner of Agriculture R. R. Poole Wednesday gave out a statement in which he said that the cotton crop is in bad shape and "will be shorter than last year by 100,000 bales." He continued: "The fine prospects for crop in the early part of the season caused the price to be depressed, and the farmers of the state are now confronted by low prices and short crops. Every pound is worth 10 cents, and my advice is to hold and market slowly, for an intelligent course in marketing is sure to bring a higher price for the crop." The bad condition is attributed to dry, hot weather, following excessive rains, which has caused it to rust and shed badly and there are some complaints of blight. "The bolls are small," says Mr. Poole, "and consequently the lint is very short."

Need Not Fear Yellow Fever.

New Orleans, Aug. 31.—A special from Jackson, Miss., to the States, says that Surgeon J. H. White, of the Marine Hospital service, who diagnosed the suspicious cases of fever at Natchez as other than yellow fever, arrived in this city Thursday. In an interview Dr. White said: "The south no longer has cause to fear yellow fever. It is indisputably proven that it can be absolutely controlled. The quarantine idea must be abandoned, just as we abandoned the quarantine of smallpox more than ten years ago. In my opinion we shall have no trouble from yellow fever in the south this year."

Dry Hole, He Thought.

Mt. Vernon, O., Aug. 31.—The well on the Rice farm in the oil field given up for a dry hole, has developed into a gusher flowing 100 barrels of oil per day. The contractor even gave up the lease and now Rice owns an oil well not controlled by the company. The flow of oil was started when the driller attempted to draw the casing from the supposed dry hole. The greatest excitment prevails over the big oil strike in eastern Knox county.

GEORGIA TAX RATE FIXED AT 4.8 MILLS

Rate Is One Tenth Mill Below That of Last Year.

MUST PAY $4.80 ON EACH $1,000

Reduction Made Possible by Great Increase in Tax Returns and in Spite of the Increased Appropriations Made by Recent Legislature.

Atlanta, Aug. 31.—If you own $1,000 worth of property the state will collect just $4.80 from you this year, as against $4.90, which you were required to pay in 1905.

After a conference lasting all the forenoon, Governor Terrell and Comptroller General W. A. Wright, Wednesday fixed the state rate at $4.80 on $1,000, or 4.8 mills per cent. This is 10 cents less on the $1,000 than was fixed last year, and it took hard work to get the figure down.

Of the 4.8 mills on the dollar, 1.7 mills are for school purposes. This will raise $1,000,000. Then 1.7 mills are for the sinking fund. This will raise $100,000 to pay off bonds maturing next year. Finally, 2.93 mills are for general purposes, including pensions.

The legislature, recently adjourned, made additional appropriations of $334,000 available in 1906 and 1907. There was $105,000 appropriated last year and paid out, which is not repeated in this year's appropriations, so that leaves a net additional sum to be raised over last year of $229,000.

It has been ascertained that even at the reduced rate fixed which is .20 below the constitutional rate of 5 mills, the increase of more than $16,000,000 in property valuations will net the state about $170,000.

This leaves about $60,000 still to be raised to meet all the state's apropriations and expenses, and the governor and comptroller general count on increased specific taxes to do this. In the same way double that amount was raised last year and it is considered there will be no doubt about the state treasury meeting every obligation at the reduced rate, and without the necessity of borrowing.

Had it not been for the increased appropriations mentioned, the rate would have been considerably lower than 4.80.

Couple in Jail on Two Charges.

Savannah, Ga., Aug. 31.—Charles Hutchinson and wife are in jail for contempt of Ordinary Henry McAlpin's court and also for attempted kidnaping of Mrs. Hutchinson's 2 year-old daughter by a former marriage, which had been placed in care of the family of her divorced husband. The couple had appeared before Judge McAlpin and demanded the custody of the child. They were informed that the court saw no reason why it should revoke its order. Hutchinson defiantly informed the court that they would take the child any way. Thereupon he was warned that such an attempt would cause trouble. It was made, nevertheless, and the trouble has resulted.

Jesuits Will Elect General.

Rome, Aug. 31.—The delegates to the congregation of Jesuits are arriving here to go into convention to elect a general of the society. The election will be held about Sept. 1. This important post has been vacant since May, when the last general, Father Martin, died. According to the constitution of the order each general before his death leaves a species of will naming five assistants who shall act as his temporary successor and attend to his affairs until another election is held. Father Meyer, who is well known in America, is mentioned in connection with the generalship.

Vice President Fairbanks Speaks.

Kansas City, Aug. 31.—Vice President Charles W. Fairbanks arrived here Thursday morning from St. Louis and after a brief stop, departed from Osawatomie, Kans., where he spoke later in the day at the celebration of the fiftieth anniversary of the battle of Osawatomie.

WILL NOMINATE CONGRESSMAN.

Convention Will Decide Contest Between Sheppard and Brennen.

Savannah, Ga., Aug. 31.—Those who are interested in the fight for congress in the first district which is now on between W. W. Sheppard, of Chatham, and J. A. Brennen, of Bulloch have left for Statesboro to attend the convention, which went into session Thursday.

Mr. Sheppard and his friends will also go to the seat of the convention.

Mr. Sheppard will have many staunch friends on the ground during the time of the convention. What is to be done by the convention is the merest guess work. Each candidate has 18 votes and it remains to be seen how the deadlock shall be broken. There is much talk of dark horses, but there has been no tangible nor definite move on the part of any one yet to capture the plum in this way.

The fight is for the long term. J. W. Overstreet, of Screven, will be nominated for the short term when the convention meets, with Colonel E. P. Miller, of Liberty, in the chair.

A Skiddoo Party.

Cleveland, Aug. 31.—Miss Margaret Schidu, of No. 23 East Twenty-third street, will give a party on Sept. 23 in celebration of her twenty-third birthday.

"People have been having lots of fun with our name ever since the term "skidoo' has come into use," said Miss Schidu, "so I decided to have a real 'skidoo' party upon my next birthday. There will be 23 candles in the birthday cake and souvenir cards lettered '23' will be distributed among the 23 guests. I am going to have just 23 girls present. An orchestra of 23 pieces will play behind a bank of 23 palms.

"I have an uncle who has a farm of 23 and a fraction acres and in the afternoon shall take my guests there, where there will be dancing in the evening with 23 dances on the program.

Negroes Would Lynch Assailant.

Valdosta, Ga., Aug. 31.—Will Clark, a negro about 22 years old, is in the county jail, charged with criminally assaulting a five-year-old negro girl, daughter of William Carswell. The crime was committed Tuesday night, but the mother of the child, being a stranger and ignorant of the laws, did not report it until Wednesday. The child was terribly mistreated and is in a serious condition. The negroes of the city have been terribly wrought up over the case and there were many open threats of lynching. In consequence Clark was removed from the city prison to the county jail. It is believed that the lack of proper leadership is what saved Clark from the fury of his race.

Instructions on Finger Prints.

Washington, Aug. 31.—Forty officers from various army posts throughout the eastern part of the United States will be ordered to the war department in Washington in a short time for instruction in taking finger prints and photography, preparatory to carrying out the new identification plans of the army. It is the purpose of the department to have at least one man at every post who is familiar with the finger print and photographic work. One squad of men has already been trained in this work. The men detailed to Washington will remain here about a week.

Murderer Is Brought Back.

Huntsville, Ala., Aug. 31.—James Hamilton, a white man charged with committing murder in this county three years ago, has been brought here from Stark, Fla., where he was captured two weeks ago. Hamilton killed W. C. Drake at New Hope. Drake was shot on the public highway, and Hamilton claims that he had been notified that Drake was looking for him to kill him. The trouble arose over Hamilton's alleged attentions to Drake's wife.

Fell to Death in Well.

Huntington, W. Va., Aug. 31.—The 4 year-old child of Gordon Blankenship living in the suburbs, wandered away from home and a few hours later the dead body of the child was found in an abandoned well 110 feet deep.

CAUGHT BY BALLOON GIRL GOES SKYWARD

Spectator at County Tair Made Unwilling Voyager.

IS BADLY INJURED IN DESCENT

Ascent Was Being Made by Professional Woman Asronaut—Other Woman Dangled at Rope's End Until Earth Was Reached.

Kingston, N. Y., Aug. 31.—Caught by the anchor of a balloon and whirled 500 feet in the air over the heads of 5,000 spectators, Mrs. Roper, of Brooklyn, was seriously but not fatally injured at the Ulster county fair at Ellenville.

A professional woman aeronaut, who has been making daily aascensions, had just entered the car and was about to give the order to cast off, when the balloon broke loose and sailed upward with the anchor trailing.

Before the bystanders could scatter the anchor fluke caught in the dress of Mrs. Roper and was whipped up into the air screaming.

As soon as the woman in the balloon caught sight of her involuntary fellow voyager far below at the end of the rope, she at once pulled the safety cord.

The balloon, which by that time had reached an altitude of 500 feet, began quickly to descend and reached the ground a quarter of a mile from the point of ascension. The woman hit the ground heavily, and when picked up was found to be unconscious and to have sustained fractures of the shoulder, ankle and several fingers.

Suggest an Open Quarrel.

Havana, Aug. 31.—A rumor is busy with suggestions of a conspiracy among the police and an open quarrel between President Palma and Vice President Mendez Capote. Both reports lack confirmation. At the palace silence is maintained. In certain quarters Capote is suspected of bargaining with the insurgents. In the event of the fall of Palma, however, there is little likelihood that the insurgents would make Capote president. They certainly would not, without at least the formality of an election. In the reported quarrel at the palace bitter words are said to have passed, culminating in Palma denouncing Capote as a traitor. The vice president is said to have replied that Palma was a president without power.

To Separate Races in Cars.

Savannah, Ga., Aug. 31.—At a meeting of the city council of Savannah, an ordinance has been introduced to separate the races on the street cars. At a meeting of council Wednesday afternoon a report of the special committee which recently investigated the police department was read. It is understood that the report severely criticized the entire department because of lack of discipline, and disrespect to Superintendent Garfunkel. It calls for a firm hand at the head of the department and recommends that a commission take charge and straighten out things.

Spartanburg Man Held for Shooting.

Spartanburg, S. C., Aug. 31.—A. J. Bruce, has been arrested on the charge of shooting and attempting to kill S. J. Richards. The two men are neighbors and live near Arkwright mill, where they are employed as operators. It seems that Richards accused Bryce's son of mistreating a calf belonging to the former, and Bryce went after Richards with a gun. He fired at his man, so it is said, but failed to hit him because Richards knocked the gun barrel as the trigger was pulled. The case will be investigated by a magistrate.

Baby Left on Train.

Evansville, Ind., Aug. 31.—An unknown woman left a dead baby on an Evansville and Terre Haute passenger train and disappeared after the train left the city. The body of the little baby was left in the toilet room after it was born, and is supposed to have died of exposure.

SOME SYMPTOMS OF HYDROPHOBIA

Manner and Methods of Telling Rabies in a Dog.

SOME USEFUL INFORMATION

The Dangers Which the Owners of Dogs Face—A Few Tips Which Will Enable Everyone to Detect a Canine That Has Developed a Case of Rabies.

It is a good thing to know when a dog has the rabies or when he is "mad," the popular characterization of the rabies. A writer in The Mobile Register hands out a lot of good advice which the average man, woman and child would do well to read and heed. An excerpt is as follows:

"Rabies in dogs, being more than usually prevalent in this part of the country this year, it is worth the people's while to get acquainted with the outward manifestations of the disease, in order that they may avoid becoming victims of it.

"The general idea is that rabies in a dog is shown by a terrible madness on the part of the animal, and by the animal's rushing through the streets, frothing at the mouth and snapping everything in reach. It is true that in extreme cases of madness dogs are known to act in this manner, but they do not froth at the mouth. Their mouths are dry and dusty.

"There are many phases of madness, from dumb rabies to furious rabies. In extreme cases of dumb rabies the animal appears sick, paralyzed and despairing. The ignorant would not suppose the disease to be rabies, but the saliva in such an animal is quite as deadly as that of a dog sick of furious rabies.

"A dog that has been bitten by a mad dog developes the disease in from ten to thirty days. Infrequently earlier than ten days, or later than thirty days. The disease has been known to take a year to develop.

"Restlessness, inability to find any comfortable position, the dropping of the lower jaw and protrusion of the tongue, with heavy panting because the throat is paralyzed, are symptoms of rabies; also, barking when there is no cause, and snapping at the air, as if tormented by invisible insects. The dropped jaw gives the impression that the animal has something in the throat. The owner tries to remove the obstruction, not knowing the animal has the rabies. The dog is often very playful, unusually so, and more than usually desirous of licking its owner's hand. Then it becomes morose and sometimes wild and snappish. The next development is paralysis of the hind legs. Then death.

"An affected dog will run away from home, returning weary, dirty and wretched. Sympathizing friends pet it and wash it. They are in great danger.

"It is said that mad dogs are recognized by their repugnance to water. This is a mistake. Dogs suffering from rabies have no repugnance to water, but simply are unable to drink, their throats being paralyzed. Neither can they eat meat or other food. If a dog exhibits the symptoms of restfulness, excessive playfulness, along with inability to eat or drink, prudence demands that it be shut up where it can do no harm to anyone. If the diagonsis is wrong, the dog can be released later. If it is right and the dog is found to be mad, the animal can be killed. It must be borne in mind that the dog does not have to bite in all cases to transmit the rabies. If there is an abrasion of the skin on a person's hand and a mad dog licks the hand, the poison is sure to be transmitted.

"It is advised that if one is in the presence of a mad dog and no easy avenue of escape presents itself, it is best for one so situated to stand perfectly still, so as not to attract the notice of the dog. The dog moves in a half blind, unintelligent way, and does not chase people. It attacks objects it finds in its path, believing them enemies."

DESPERATE MOB STORMS JAIL.

Mobile Citizens Believed Negro Was in the Prison.

Mobile, Ala., Aug. 31—Between 10 and 11 o'clock Wednesday night a mob of 500 persons attempted to take and lynch William Thompson, a negro, confessed assailant of two white girls and one little negro girl.

The mob broke into the jail yard through the big wooden gate and filed into the yard, the sheriff's deputies met them at the door armed with rifles, which they discharged, with blank cartridges over the heads of the mob, no one being hurt.

A committee of the mob was finally admitted to the jail, after which the assurance being given that the negro was not there, the mob dispersed.

Will Thompson, the negro whom the mob sought to lynch was taken out of jail ten minutes before the mob arrived, and put on the train for Birmingham.

THE RESTLESS MORO.

He Is Never Happy Unless on a Marauding Expedition.

The Moro is brave to fearlessness, a born pirate and essentially a first class fighting man. He is never happy unless on a marauding expedition and stealing from his neighbors, friends and foes alike. The chief who is the most successful thief is the most respected and the most powerful among chiefs.

The Moro trades with his neighbors on market days in the various coins of the realm and foreign moneys. At other times he is a free ocean rover, extending his trading voyages as far north as the islands of Negros and Panay, south to the Celebes and Borneo and westerly to the Palawan. He is the most successful of smugglers, and a little act of piracy when chance offers goes without mention. The Moro is the most perfect of aquatic beings, the most skillful small boat sailor or large "prau" navigator extant. He can no more drown than can a fish. There is no record of a drowned Moro. He can dive to the bottom of the sea at depths of from twenty-five to a hundred feet for the valuable mother-of-pearl shell, and his life is largely lived at sea from infancy. Along the coast many of the Moro villages are built over the water.—Colonel Owen J. Sweet, U. S. A., in Harper's Weekly.

No Wool Over His Eyes.

Uncle Abe, a grizzled old negro, visited a zoological garden. He stood fascinated before a cage containing a chimpanzee and could not be induced to move. After awhile the animal came to the front of the cage and Uncle Abe spoke to him.

"Howdy?" he said. "Howdy?"

The chimpanzee not making any response, Uncle Abe chuckled and winked at him knowingly.

"Dat's right; dat's de way ter do! Doan' you nebber 'gin ter talk. Ef you does white man put er hoe in yer han' en meck yer wuk!" he said.—Harper's Weekly.

Stephen Girard, Hero.

A tablet "in commemoration of the courage and humanity displayed by Stephen Girard during the epidemic of yellow fever in the year 1793" in Girard college in Philadelphia discloses a phase of character in the philanthropist not generally understood. During the fever epidemic he gave up his business and his luxurious home and assumed the superintendency of a yellow fever hospital. He took up the work others recoiled from and did the work because it was his duty.

SAN FRANCISCO RELIEF FUND

Important Communication From Governor Broward.

Tallahassee, Fla., Aug 28, 1906.—To the several committees throughout the State of Florida who have collected funds for the relief of the sufferers in California, from the recent devastating earthquake and fire at San Francisco, I herewith have published a letter from the Chairman of the Finance Committee of the Relief and Red Cross Funds of San Francisco, Cal., which explains itself:

"San Francisco, Cal., Aug. 11, 1906.
"His Excellency, The Governor,
"Tallahassee, Fla.
"Dear Sir:

"In pursuance of our policy of centralizing the resources of this committee, we take the liberty of asking you, through the press or otherwise, as may seem expedient to you, to request all committees in your State to furnish us with a statement of the funds received by them. This statement should include the sums already forwarded here, and the balances now remaining in their hands.

"We would have you point out that while the fund we have on hand is comparatively large, the work of rehabilitation will necessitate the expenditure of large sums, and that we are desirous of receiving all outstanding sums in order that we may more definitely ascertain the amount at our disposal and plan accordingly.

"I shall be pleased to hear from you in reply. Yours very respectfully,

"JAMES D. PHELAN, Chairman."

I respectfully suggest that the request of Mr. Phelan, the chairman of the Finance Committee of California, be complied with. With kind regards,

Yours very truly,
N. B. BROWARD, Governor.

THE BOARD OF CONTROL.

Regular Monthy Business Meeting to be Held in This City Today.

Hon. N. P. Bryan of Jacksonville, chairman; P. K. Yonge of Pensacola and Dr. A. L. Brown of Eustis, three of the five members of the Board of Control, arrived in the city yesterday to attend the regular meeting of the Board in this city today. Secretary J. G. Kellum arrived early yesterday and will be on hand to record the proceedings. An informal meeting to consider minor matters was held last night, but the regular monthly meeting will be held this morning. The Board controls the affairs of the State University, as well as the State Female College, and meetings are always looked forward to with considerable interest. Each member works in harmony with the other for the best interests of the public school system, and as a result everything is moving along as smooth as clock-work.

Relief of Crop Failure.

St. Petersburg, Aug. 31.—An imperial ukase issued Thursday authorizes the minister of finance to issue $25,000,000 in four per cent rentes to cover the expenses of the relief of the districts affected by the failure of the crops. Another ukase prolongs martial law where it has already been enforced for another year.

Parker Addresses Bar Association.

St. Paul, Minn., Aug. 31.—The feature of Thursday's session of the bar association was the annual address which Judge Alton B. Parker has been in the habit of delivering to the association. There was a big attendance of members.

Easy for James.

Paducah, Ky., Aug. 31.—The Republican executive committee of the first congressional district met at Princeton and decided to nominate no one for congress. James, the Democratic nominee, therefore, will have no opposition.

JUSTICE COLMAN'S COURT.

Will McDonald Arraigned Upon Charge of Slaughtering Cats.

Will McDonald, a colored man residing in the Sanfelaski hammock neighborhood, near this city, was arraigned before Justice Colman Friday upon a charge of killing house-cats. This may be considered as a rather peculiar grievance upon which to "haul" a man up in court, but in this particular instance it seems that the accused had something in the nature of a mania for killing the little animals, with the result that he "got up against" the wrong cats, the owners objecting to having their animals dispatched so promiscuously.

After hearing the evidence in the case, Justice Colman placed McDonald under a $150 bond for his appearance at the next term of the circuit court. The bond was furnished and the man released.

J. W. Williams of Clark was in town yesterday and made The Sun an appreciated call. Jim had not been to town in so long a time that he had become almost a stranger to his friends here. He is now assistant postmaster at Clark.

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundancy.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

General Gilchrist neglected to take a press agent along with him on his European tour, hence his gubernatorial boom has not been materially improved by his trip.

Germany is starting in for an international exposition in 1912 that shall surpass the Chicago and St. Louis fairs. Well, the Germans will need just about six years for that job.

Query: Why should the freight rate on grain from St. Louis to Gainesville be 18 cents per 100 pounds higher than from St. Louis to Jacksonville? The distance via Montgomery is 10 miles further to Jacksonville than to Gainesville, yet Gainesville merchants have to pay the above difference in freight charges. Here is a chance for our Board of Trade to get to work, and this is only one of many instances in which Gainesville is discriminated against in the matter of freight rates.

BRYAN'S WELCOME.

Referring to the reception given Hon. William Jennings Bryan at New York on his return from a trip around the world, The Atlanta Constitution says editorially:

"The Democratic hosts assembled in New York to give welcome to William Jennings Bryan reflect in their enthusiasm the feeling of the masses of American people toward the foremost private citizen of the United States.

"A truly remarkable tribute is this—one without parallel in the history of this or any other country.

"When General Grant returned after his round-the-world trip, he was given most enthusiastic reception at the hands of the people; but General Grant had for two terms held the exalted position of President of the United States, and back of that was a record of military success which fired the Northern heart. Mr. Bryan's political career is marked by two successive defeats for the Presidency, and yet the popular enthusiasm over him is fully equal to, if not greater than, that accorded Grant.

"There can be no doubt of the genuineness of this enthusiasm, nor of the reason for it. First, it is a tribute to the character of the man who has passed unscathed through an avalanche of criticism and misrepresentation covering a period of fourteen years and more; second, it is most eloquent recognition of the righteousness of the great fight of reform in which he has been the foremost figure.

"Mr. Bryan has not changed since that first great battle in 1896, but the American people have come to a better understanding of him and the principles for which he, as the chosen leader of the Democratic party, was then contending. He has been fully vindicated by the progress of events—and so, too, has the party of which he stands, now as then, the peerless leader. The present 'Bryan wave' is no less a Democratic wave, and its portent is Democratic victory in 1908.

"Every Democrat in America joins in the welcome extended Mr Bryan—and so does almost everybody else."

THE DRAINAGE QUESTION.

The Sun has given little space to either side of the drainage question for the simple reason that, leaving out the question of the feasibility of the drainage of the Everglades, we believe it the heighth of folly to even begin the work of drainage until the question of ownership of the lands is settled by the courts. The Legislature has granted more land to the railroads than the State owns, but the Internal Improvement Fund Trustees have refused to deed to the railroads the lands earned by them under acts of the Legislature, and the railroads have appealed to the courts to compel the Trustees to issue deeds to them. In the opinion of some of the ablest lawyers of the State, notably Hon. John S. Beard of Pensacola, Senator-elect from Escambia county, the courts will decide in favor of the railroads, and in that case the State's money spent for drainage will have been expended for the benefit of the railroads. This is the situation in a nutshell, as summed up by Mr. Beard, and no one can truthfully accuse him of being a corporation attorney.

The copy of an editorial from The New Orleans Times-Democrat, now being circulated by Governor Broward, has no bearing upon the situation in Florida, for in Louisiana there was no litigation over the ownership of the lands.

If a fellow is really in love he will do more fool things than will the girl. In a love affair the girl always shows the more sense.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

The postal authorities at Washington, recognizing the liability of postmasters to make mistakes in getting letters in the wrong boxes, have fixed a penalty of 200 dollars on persons taking mail out of the office other than their own and not returning it at once. This law also includes newspapers. The excuse that it is the postmaster's fault "cuts no ice." If you have been getting other people's mail you had better take warning or you may get yourself in trouble.

Reginning Sunday, Sept. 21, The Tampa Tribune will commence the publication of a series of articles from the pen of Hon. Robert W. Davis, former Congressman from this district, treating of Florida men and measures. His first article will deal with the Westcotts, who figured so prominently in public life in days of the past. The Tribune is to be congratulated upon securing a series of articles from such a prominent personage as "Our Bob."

Sand capsules are now on the patent medicine market put up by a Chicago firm. The Chicago company states that the particular brand of grit they put up cures—now listen—indigestion, nervous dyspepsia, chronic diarrhoea, constipation, catarrh of stomach and bowels, gastritis, kidney trouble and rheumatism. They are sold for only 75c per dozen. The sand capsules will be extensively advertised in the papers.

TRAGIC DEATH FOR GEORGIAN.

Riddled with Bullets by Farmer and Negro Hands.

Columbus, Ga., Aug. 31.—Ben Jack Moore, a former Georgian, who was for years a resident of Columbus, and an engineer on the Central of Georgia railway, met death in a tragic and terrible manner in Mississippi several days ago. His remains were brought home and buried at Catania, Ga.

Moore had become a prosperous farmer in Mississippi, where he located two years ago. Sunday morning he went to the home of a neighbor to see him regarding one of his (Moore's) hands that he had employed. While there he noticed one of his fine dogs chained to the house. Moore had some fine canines in which he took much interest, and to which he was greatly attached. He spoke to his neighbor about keeping his dogs, and this brought on a quarrel, the climax of which was a tragedy.

The farmer, his three brothers and a negro hand all began firing on Moore, and he was riddled with bullets and instantly killed. His body was so mutilated with bullet holes that when he was brought to Georgia his friends were not allowed to see his remains.

The assailants were arrested, but it seems were discharged at the preliminary hearing.

Will Delimit Frontier.

Constantinople, Aug. 31.—A Bulgarian-Turko commission has been appointed to delimit the frontier from Vilayet to Andrianople which is in dispute and which led to a sharp fight recently between the soldiers guarding the Bulgarian post at Suguk and the guard on duty at the Turkish post of Dervis Migila. Turkish and Bulgarian troops have been confronting one another from positions occupied after the fighting, but a suspension of hositilities has now been agreed on pending an investigtaion.

Actress Killed by Elevator.

Williamsport, Pa., Aug. 31.—Miss Charlotte Dean, leading lady of the Valamont Park Stock company, was killed late Wednesday night in the elevator shaft at the Park hotel. Miss Dean attempted to take the elevator to go to her room, before it had stopped on the first floor. She was caught between the elevator and the side of the shaft and was carried to the second floor, from where she dropped to the basement.

The Breath of Life.

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by all druggists. Price 50c and $1.00. Trial bottle free.

Killed Two, Then Suicides.

LaCrosse, Kans., Aug. 31.—As a result of the quarrel over the settlement of an estate at McLaren, 17 miles west of here, Omar Young shot and killed Alexander Walker, Jr., and Grant Pettyjohn. Young then started for his home at Alexander and shot and killed himself when 2 miles out of town. Young was a bachelor. Walker and Pettyjohn were married and had families.

Miss Jessie S. Dword, 37 South street, Passaic, N. J., writes:

"I took Peruna as you directed. I had a dry cough and after using two bottles of Peruna, I found relief. You have my heartfelt thanks."

A cough is caused by a catarrhal condition of the throat and bronchial tubes. Remove the catarrh and the cough disappears. Peruna is the remedy for all catarrhal conditions.

Permanent Benefit Followed Use of Pe-ru-na.

Miss May Cray, 147 11th street, Brooklyn, N. Y., writes:

"For more than five years I suffered from rheumatic pains in my joints, and in damp or stormy weather I was obliged to stay in doors.

"Medicine seemed to be of no use until I started using Peruna.

"I took twelve bottles in all, although it is six months ago since I stopped.

"I have had no return of my old complaint, in spite of the fact that I have been out in all sorts of weather during the severe winter."

No better remedy was ever devised by the medical profession for the mitigation of all climatic ailments than Peruna.

Pe-ru-na Used For Throat Trouble. Keeps the Remedy at Hand.

Mrs. J. A. Baker, 380 Locust avenue, Amsterdam, N. Y., writes:

"I feel it my duty to write and tell you what Peruna has done for me, so that all those who are troubled as I was may find the same speedy cure.

"Four years ago I lost my voice, so that I was unable to speak above a whisper for seven weeks. Our family doctor could do nothing for me.

"After seven weeks suffering, I read some circulars in regard to Peruna.

"I bought a bottle at once and took it in teaspoonful doses every hour, and in two days I could talk. I will never be without it."

SELLER OF SOCKS JAILED.

Young Woman in Macon Charged with Confidence Game.

Macon, Ga., Aug. 31.—At police court it has developed that the Miss Annie Hodges who was removed from the streets at the request of a popular conductor, it is alleged she was working a confidence game. She came to Macon selling half hose. When she applied for a permit to conduct her business there was amusing comment, but she proceeded and sold goods for several days unmolested.

Wednesday she bobbed up again, not selling socks, but making demands for money in $25 blocks. When she struck the railway conductor he put up a strenuous kick and the police soon had to interfere. The woman went to the conductor's home and to the homes of other prominent people and openly declared that the heads of the families owed her money.

The end of it all came in her downfall before Recorder Nottingham. In court she told a story apparently revealing refinement in the young prisoner, but she talked too much: She was fined $30, and when she would not stop talking she was put further to the bad with a fine of $10 for contempt. She is yet in the city prison, and her case has caused no little comment. Officers who dealt with the case attributed her peculiar conduct to an unabalanced mind, but the woman persists that she is honest. Unless she is paid out she will serve out a sentence.

An Ounce of Prevention

Is worth a pound of cure. There are many poor sufferers, consumptives, who are hopeless of getting well—who, if they had taken care of themselves, would now be well. A cough is the foundation of consumption. Ballard's Horehound Syrup will cure that cough. Mrs. S——, Great Falls, Montana, writes: "I have used Ballard's Horehound Syrup in my family for years—my children never suffer with coughs." Sold by W. M. Johnson.

Habit-forming Medicines.

Whatever may be the fact as to many of the so-called patent medicines containing injurious ingredients as broadly published in some journals of more or less influence, this publicity has certainly been of great benefit in arousing needed attention to this subject. It has, in a considerable measure, resulted in the most intelligent people avoiding such foods and medicines as may be fairly suspected of containing the injurious ingredients complained of. Recognizing this fact some time ago, Dr. Pierce, of Buffalo, N. Y., "took time by the forelock," as it were, and published broadcast all the ingredients of which his popular medicines are composed. Thus he has completely forestalled all harping critics and all opposition that might otherwise be urged against his medicines, because they are NOW OF KNOWN COMPOSITION. Furthermore, from the formula printed on every bottle wrapper, it will be seen that these medicines contain no alcohol or other habit-forming drugs. Neither do they contain any narcotics or injurious agents, their ingredients being purely vegetable, extracted from the roots of medicinal plants found growing in the depths of our American forests and of well recognized curative virtues.

Instead of alcohol, which even in small portions long continued, as in obstinate cases of diseases, becomes highly objectionable from its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple-refined glycerine, which of itself is a valuable remedy in many cases of chronic diseases, being a superior demulcent, antiseptic, antiferment and supporting nutritive. It enhances the curative action of the Golden Seal root, Stone root, Black Cherrybark and Bloodroot, contained in "Golden Medical Discovery," in all bronchial, throat and lung affections attended with severe coughs. As will be seen from the writings of the eminent Drs. Grover Coe, of New York; Bartholow, of Jefferson Medical College, Phila.; Scudder, of Cincinnati; Ellingwood, of Chicago; Hale, of Chicago, and others, who stand as leaders in their several schools of practice, the foregoing agents are *the very best* ingredients that Dr. Pierce could have chosen to make up his famous "Discovery" for the cure of not only bronchial, throat and lung affections, but also of chronic catarrh in all its various forms wherever located.

Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years, and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." THE BAY LEAF.

Famous For More Than Its Use For Culinary Purposes.

"Two-thirds of modern recipes seem to call for 'a bay leaf,'" said a young housekeeper the other day, "and somehow it is always the one thing in the whole formula that a housekeeper will omit. One never has a bay leaf, probably for the reason that they are so elusive. Other necessaries confront you on market stalls and shop counters, but the bay leaf rarely does.

"When I finally obtained mine (a small glass jar of them) a short time ago I had not the faintest idea of a connection between the little withered looking things in the glass and the laurel leaves of the poets. To my surprise I now find that they are one and the same. I believe most sister housekeepers would be amazed to find that when they send a bay leaf fluttering into the pot of soup or stew they are really consigning to it the historic 'bays' which wreath the brows of Homer and the bard of Avon. The scientific name is Laurus nobilis, and it belongs, according to my encyclopedia, to the laurel family, which includes the familiar sassafras. It is the 'green bay tree,' to which the wicked man is likened in the Scripture.

"My delvings into this subject have revealed amid much laurel lore the fact that Bacon and other celebrities appreciated (gastronomically) its spicy flavor."—New York Press.

LOVE OF HOME.

An Instinct That Is Remarkably Strong In the Horse.

The strongest instinct in the horse is that of home—all his thoughts and interests lie there—and the most wearing pain he suffers is that of nostalgia—the longing for the familiar stall and the well loved surroundings. What wonder that our pets almost invariably return to us from such unhappy experiences mere shadows of their former selves and in such wretched bodily condition that it is months before they regain their usual health and spirits. We blame the man in charge, poor feed, bad stabling, insufficient pasturage, etc., and overlook entirely the fact that it is our own fault and the direct result of heart hunger which no grass, grain or rooftree could entirely assuage. Of course the little used muscles have, from lack of exercise, shrunk and lost their firmness and plumpness; the crest has fallen from the same cause; "poverty lines" appear in the quarters and shoulders; the tail and mane are all out of shape or all worn away; the feet stubbed off; the coat dingy and sunburnt; the skin full of all manner of scars, cuts and abrasions; all these are the effect, not the cause, of the lack of bodily condition which is two-thirds due sheerly and solely, in the high bred, nervous, sensitive horse, to simple homesickness.—Exchange.

POOR LITTLE PENGUINS.

Many Are Nursed to Death by the Adult Birds.

An antarctic explorer writes: "I think the penguin chicks hate their parents, and when one watches the proceedings in a rookery it strikes one as not surprising. In the first place, there is about one chick to ten or twelve adults, and each adult has an overpowering desire to sit on something. Both males and females want to nurse, and the result is that when a chicken finds himself alone there is a rush on the part of a dozen unemployed to seize him.

"Naturally he runs away and dodges here and there till a huge 'emperor' falls on him, and then begins a regular football scrimmage, in which each tries to hustle the other off, and the end is too often disastrous to the chick. Sometimes he falls in a crack in the ice and stays there, to be frozen, while the parents squabble at the top.

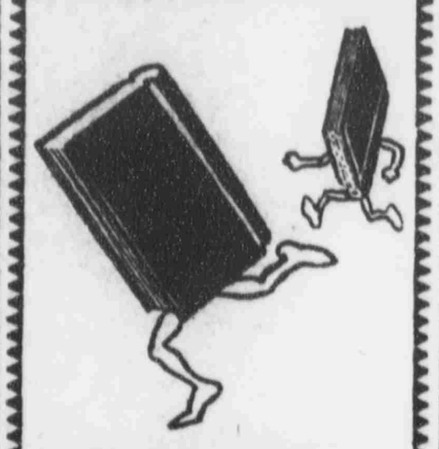
"Sometimes, rather than be nursed, I have seen him crawl in under an ice ledge and remain there, where the old ones could not reach him. I think it is not an exaggeration to say that of the 77 per cent that die no less than half are killed by kindness."

"Red as a Sapphire."

To say that a young girl's eyes are as blue as sapphires is as absurd as it would be to say that her mouth is as red as velvet. Sapphires, no more than velvet, are exclusively one color. The sapphires of Ceylon run from a soft blue to a peacock blue, which last is practically a green. There is also a red sapphire, sometimes called a Ceylonese ruby, a stone as precious as a Burma ruby. Besides blue, green and red sapphires, many fine ones are yellow and white.

If It's a Reputation

You are after, White's Cream Vermifuge has a world-wide reputation the best of all worm destroyers and its tonic influence on weak and unthrifty children. It improves their digestion and assimilation of their food, strengthens their nervous system and restores them to health and vigor natural to a child. If you want a healthy, happy child, get a bottle of White's Cream Vermifuge. Sold by W. T. Johnson.



TESTING METHODS

A test as to the value of newspaper advertising over other methods was made a year ago by the great publishing house of Harper & Bros. Two books were selected, one by a well known popular author and the other by an unknown writer. The latter was selected for the newspaper advertising and the other for the usual channels.

With equal expenditure the work advertised in the newspapers outstripped the other in sales by 200,000 copies.

The result was a complete surprise and established the fact that readers go to the newspapers for information with regard to books as well as with regard to most other matters.—National Printer-Journalist.

The best advertising medium for any merchant is the local paper which goes into the homes of the people, as this paper does.

He Knew.

"Did you never," asked Miss Solefool earnestly—"did you never meet a person whose very presence filled you with unutterable feelings—whose lightest touch seemed to thrill every fiber in your being?"

"Oh, yes," responded Mr. Oldbatch; "you mean the dentist."—Cleveland Leader.

A Bowing Acquaintance.

Two young men met a woman and one of them raised his hat immediately. "Who was that, Charlie?" asked one of them. "I don't know," was the reply. "Don't know! You must know, for you raised your hat to her." "Yes, but, you see, I'm wearing my brother's hat, and he knows her!"—London News.

Dr. Finn's Testimony Interesting.

Dr. Thomas Finn of Boonsboro, Mo., who has practiced medicine for 32 years, says he has used every prescription known to the profession for treatment of kidney and bladder diseases, and says he has never found anything so effective in both chronic and acute kidney and bladder trouble as Foley's Kidney Cure. It stops irregularities and builds up the whole system. J. W. McCollam & Co.

Among the prominent visitors to Gainesville is Hon. Fred S. Morse of Miami, who is stopping at the Brown House. He is now engaged in the real estate business at Miami, and his many friends throughout the State will be pleased to learn that he is prospering in the Magic City.

Henry McMillan, the negro who was arrested by Deputy Sheriff Story for selling whiskey, was tried before Acting Mayor Cushman yesterday morning and fined ten dollars and costs. He appealed the case, through his attorney, C. C. Thomas, to the circuit court. McMillan had been formerly convicted in the circuit court for a similar offense, and it is not unlikely that he will again be brought before that tribunal at the next term.

Those persons who continue to violate the law against killing bull-bats should be arrested and taught a salutary lesson. The Sun has repeatedly called attention to the fact that it is against the law to kill these birds, as provided in Chapter 4957, Acts of 1901, or any other bird not specifically exempted from the provisions of that law. Bull-bats are the greatest of insect destroyers and the officers should enforce the law against their destruction.

Mr. and Mrs. J. H. Hudson have gone to Cedar Key, where they will spend a few days with the latter's relatives. Among the prominent visitors to Gainesville is Hon. Fred S. Morse of Miami, who is stopping at the Brown House. Henry McMillan, the negro who was arrested by Deputy Sheriff Story for selling whiskey, was tried before Acting Mayor Cushman yesterday morning and fined ten dollars and costs. He appealed the case, through his attorney, C. C. Thomas, to the circuit court. McMillan had been formerly convicted in the circuit court for a similar offense, and it is not unlikely that he will again be brought before that tribunal at the next term.

Those persons who continue to violate the law against killing bull-bats should be arrested and taught a salutary lesson. The Sun has repeatedly called attention to the fact that it is against the law to kill these birds, as provided in Chapter 4957, Acts of 1901, or any other bird not specifically exempted from the provisions of that law. Bull-bats are the greatest of insect destroyers and the officers should enforce the law against their destruction.
